**ENTOMOLOGISTS VISIT FIELDS**

Gathering Material for Records of the Hessian Fly.

O. C. McBride from the University department of entomology and J. R. Horton, federal entomologist from the experimental laboratory at Wichita, Kan., left Monday morning for the experimental fields near St. Louis and in southern Missouri to collect wheat samples for the fall records of the hessian fly infestation. Mr. Horton has been working co-operatively with the department here.

There are ten of these experimental fields and three have already been covered. Horton and McBride will visit six on this trip and Dr. Leonard Haseman will visit one near Hannibal next week.

**DR. RAVENEL ATTENDS PUBLIC HEALTH MEETING**  
Convention of National Association Of Which He Is President, Held in New York.

Dr. M. P. Ravenel recently returned from New York where he attended the convention of the American Public Health Association which was held from November 14 to 18 at the Hotel Astor. The purpose of the convention was to celebrate the fiftieth anniversary of the founding of the American Public Health Association and to celebrate the ninety-ninth birthday of its founder, Stephen Smith.

Doctor Ravenel is president of the National Public Health Association. In speaking of this organization Doctor Ravenel said, "This association is the largest and best-known public health organization in the world and has helped more than any other one thing to decrease the death rate in the United States. When this organization started, the death rate in New York City was thirty-eight people per thousand for every year, but by the work of this association the death rate last year was reduced to twelve people per thousand."

"These statistics so encouraged Stephen Smith," Doctor Ravenel continued, "that in one of the convention meetings he proposed to make the goal of life longer, and instead of having three score years and ten as the Bible says, from now on let 100 years be the goal of a life."

There were representatives at this convention from England, Mexico, Canada, Peru, Ecuador, Cuba and many other countries.

**PROF. TROWBRIDGE SPEAKS**  
He Makes Talk on Horse Situation in Missouri.

Prof. E. A. Trowbridge, chairman of the Missouri College of Agriculture, said in a speech before the International Live Stock Exposition in Chicago that present indications are that a very large portion of the farm power in Missouri is and will continue to be supplied by horses and mules. Professor Trowbridge addressed the exposition on "The Horse Situation in Missouri."

To substantiate this statement he quoted the Illinois Experiment Station Bulletin No. 231, that on farms of less than two hundred and forty acres of crops the horse costs cannot be reduced enough to offset the cost of operating a tractor. He also stated that 80 percent of Missouri farms are of less than two hundred and forty acres and that the horse and mule is the more practical farm power.

Professor Trowbridge also discussed the effect of the war on the Missouri horse and spoke of the shortage of young animals in the state, but said that the number of mares mated to stallions and jacks in the spring of 1921 was greater

than in the past three years which indicates an increase in the future.

**J. Kelly Wright on Lecture Tour.**

J. Kelly Wright spoke at a luncheon of the Commercial Club of Booneville to-

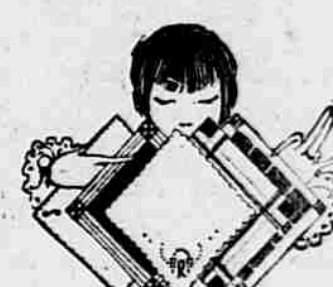

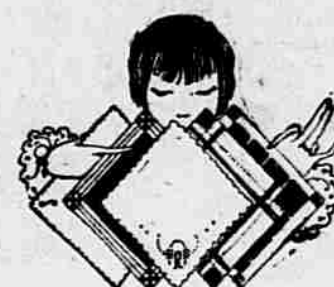

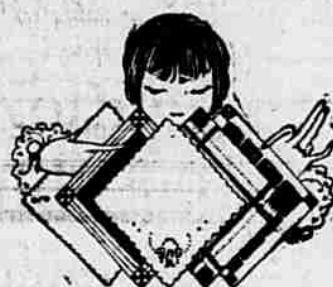

day. Tomorrow afternoon he will deliver an address at the county round-up and corn show of Howard County at Fayette, going tomorrow night to Jack sonville in Randolph County to make a speech. On Saturday night he will speak

at a banquet given during the Saline County farm bureau roundup at Marshall.

**"Y" Secures Work for 325 Students.**  
Hugh C. Proctor, employment secre-

tary at the Y. M. C. A., has estimated that during the past three months this department has supplied 325 University students with jobs, of which eighty-five are permanent and the remainder are temporary.

## Christmas Handkerchiefs Most Charming

Never in the history of handkerchief craft have the executions been accomplished in such charming, delightful and extensive variety. At prices lower than since before the war, the peacetime mind shows its return to artistry by creating lovelier 'kerchiefs than you have ever seen. The Venetian, Irish and Madeira

peasants seem to have established a new rivalry for beauty and you will find a complete ensemble here. Many of you will want to monogram your 'kerchief gifts and you do not wish to be rushed so you will want to buy now. Then, too, earlier shoppers have greater variety for choice. We advise immediate buying.
